### Strengths and Interests

Dear \_\_\_\_\_,

Today, in class, we talked about strengths, things that we are good at, interests, and things we like to do. The students independently participated in an online assessment to determine what skills they are good at and are interested in.

Please encourage your student to share the results of their skills, abilities, and interest questionnaires with their families and see if they agree with the findings.

Please do not hesitate to reach out with any questions or concerns.

Best,

\_\_\_\_\_
